Fluency in Perspective: What and Why

This is a collection of fluency passages about diverse changemakers from across Turtle Island – individuals who stood up for themselves and others, who fought hard to overcome obstacles, made a difference, and found joy and success in a variety of fields!

Some important words from novelist Chimamanda Ngozi Adichie:

Stories matter. Many stories matter. Stories have been used to dispossess and to malign, but stories can also be used to empower and to humanize. Stories can break the dignity of a people, but stories can also repair that broken dignity.

The American writer Alice Walker wrote this about her Southern relatives who had moved to the North. She introduced them to a book about the Southern life that they had left behind. "They sat around, reading the book themselves, listening to me read the book, and a kind of paradise was regained."

I would like to end with this thought: That when we reject the single story, when we realize that there is never a single story about any place, we regain a kind of paradise.

Source

In her TED talk, Nigerian author, Chimamanda Ngozi Adichie, "tells the story of how she found her authentic cultural voice — and warns that if we hear only a single story about another person or country, we risk critical misunderstanding." Please consider adding the Fluency in Perspective passages to your ever-growing collection of stories that empower and reflect human diversity, resilience and joy

Process and Development

The phrase "mirrors and windows" was initially introduced by <u>Emily Style</u>. Educator <u>Rudine Sims Bishop</u> expanded this idea and spoke of "windows, mirrors and sliding glass doors" to explain how students see themselves in story and the world around them.

Stories that are mirrors help students see themselves more clearly and can create a sense of belonging. Stories that are windows help us see the world around us. Understanding the lives of others also helps students begin to see where they fit into the world. Stories that are sliding doors help us see how we might step out into the world and make a difference, take action and make the world a better place for all.

This first fluency collection is just the beginning and reflects stories around us in a moment of time. This collection will grow and many more stories and many other perspectives will be added. We chose the stories of people who inspire us, who are resilient, who are changemakers.

As a team, we reflected on each passage carefully, asking questions including:

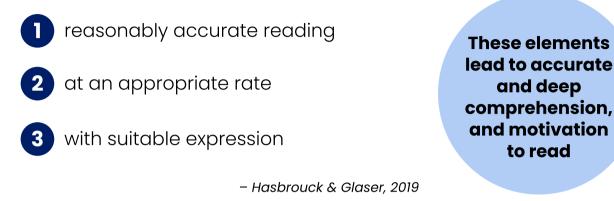

- Will this reading support the age and stage of students in grade 8?
- Does this article share perspective(s) that have been underrepresented in curriculum, and in general, in the past?
- Will these passages build knowledge about a) Indigenous culture in a positive light and b) the impacts of colonization?
- Does this article spark students to think critically?
- Are the individual voices of these changemakers used whenever possible? Are there any voices that are missing?
- Does the collection of stories reflect some of the history, values and lived experiences of the diverse individuals who live here, or have lived, in the place we now call Canada?

Are there changemakers you would like to see celebrated in future fluency passages? Let us know at info@onlit.org

Fluency Basics

This resource is designed using research-based practices for improving reading fluency. Fluency is required for comprehension, and is a key skill students need to develop that is outlined in Strand B – Foundations of Language. It can be broken into three main components:

Researchers have investigated the nature and importance of reading fluency which informs our understanding of what fluency is, and how we should best teach it:

Oral reading practice is important!

"the amount of oral reading practice ... is correlated with reading achievement gains more closely than the amount of in class silent reading practice"

Prosody, or expression, supports reading comprehension

"Proper expression is important because there are many aspects to translating text that are not on the page. Except for punctuation, authors do little to help readers to group words together, pause appropriately, or raise or lower pitch. If you don't get those things right it can be difficult to understand."

Fluency instruction is powerful

"Whatever it is that students learn from fluency training with particular texts has been found to transfer to their performance with other texts."

- Shanahan, 2021

Language Curriculum Connections

B2.3: - Read a variety of complex texts fluently, with accuracy and appropriate pacing, to support comprehension, and when reading aloud, adjust expression and intonation according to the purpose of reading

Reading fluency is a key element in strand B of the *2023 Language Curriculum,* but this resource also draws on many other elements of the Curriculum:

The creation of a "safe and inclusive learning environment, where all

- students are valued, empowered, engaged, and able to take risks, reflect on their learning, and approach the learning in a confident manner."
- The idea that "an effective language curriculum recognizes the diverse
 identities and abilities of students and their different language and cultural experiences and learning needs."
- The need to "encourage students to experience the joy and possibility that literacy learning can ignite."
- That "reading materials should reflect the diversity of students in the
 classroom and Canadian and world cultures, including First Nations, Métis, and Inuit cultures."

"In strands B through D, students integrate Strand A expectations as they develop and apply their understanding of strand-specific concepts."

The content in the *Fluency in Perspective* passages integrates many aspects of *Strand A*, including supporting students to:

- understand diverse identities, experiences, perspectives, histories, and contributions while interacting with diverse texts;
- develop an understanding of their own identity through exploration of the concepts of identity, self, belonging, and the experiences of others;
- analyse content and themes centred in First Nations, Métis, and Inuit cultures.

Provocations for Educators

Before you begin working with these fluency passages, consider:

- "How are students learning about themselves and their histories?"
- "How are students learning to value and affirm the identities and practices of those who differ from them?"
- *"How are students naming, understanding, questioning and disrupting oppression and injustice?"*

- Gholdy Muhammad's book Unearthing Joy. Muhammad is also the author of Cultivating Genius: An Equity Framework for Culturally and Historically Responsive Literacy.

 "If you don't focus on literacy, there is no equity. None. And I think that's the main thing that people need to understand."

> Kareem Weaver, a member of the Oakland NAACP Education Committee and a leader of the organization, Full and Complete Reading is a Universal Mandate (FULCRUM). He is also an award-winning teacher and administrator.

Using Fluency in Perspective

Fluency in Perspective consists of 14 passages designed to support systematic and explicit instruction in fluency. Each passage has two main components:

1 Autum	nn Peltier: Anishind	aabe Water	Autumn Peltier: Anishinaabe Water Protector	
Protec	tor			
			Autumn Peltier, an Anishinaabe activist, has become a symbol of hope in the fight	14

A one-page educator summary

A student-facing passage

Each passage has an educator summary page with three main sections:

- Words That Matter: this section highlights words central to the passage's message, unpacking pronunciation, morphology, and etymology if appropriate.
- Vocabulary Spotlight: this section pulls out Tier 2 vocabulary words found in the passage that could be used with an <u>explicit vocabulary</u> <u>instructional routine</u>.
- **Spotting Syntax:** this section showcases sentences with syntactical structures that may benefit from explicit instruction. See the <u>B3 Language</u> <u>Conventions Continuum</u> and the <u>ONlit Syntax Party</u> for additional detail.

Using Fluency in Perspective

Fluency in Perspective was purposefully designed to be a helpful tool to support a variety of different instructional elements. Educators can:

Provide explicit instruction in multisyllabic decoding, vocabulary,

- morphology, knowledge, and syntax using the educator support page for each passage, pre-teaching content before students read passages.
- Support fluency development with text suitable for grade 8 with a Quick Fluency Routine (see p. 13).
- Use a variety of evidence-based instructional routines, including <u>Partner</u> <u>Reading/Paragraph Shrinking</u> or <u>repeated reading</u>.

Differentiation and Scaffolding

It is important that all students have the opportunity to read complex text - this supports them to learn content, and continue developing important language comprehension skills that support overall comprehension. Passages in this set were written to fall between Lexile levels 1010 and 1200.

For students who may not yet read proficiently, texts can be carefully scaffolded to support fluent reading for meaning:

• Pull out multisyllabic words, and explicitly teach students a <u>flexible decoding</u> <u>strategy</u> to break down these longer, more challenging words.

Consider integrated instruction of complex words - including instruction of a word's meanings syllables morphemes and syntactical role to scaffold a

- word's meanings, syllables, morphemes, and syntactical role to <u>scaffold a</u> <u>challenging text</u>.
- Explicitly teach scooping phrases, showing which words stick together. Give students opportunities to practice both orally and on paper.
- Build predictable routines, especially using an explicit <u>"I do it. We do it. You</u> <u>do it"</u> framework.

Read the passage in its entirety to students before beginning fluency work, modelling fluent reading. Stop regularly on words that most students would

know, and request a choral response. Occasionally, require students to chorally read a whole paragraph.

Student Pairings

Fluency in Perspective was purposefully designed to be a set of passages to flexibly support a variety of different evidence-based instructional routines. When using it with student pairs (such as with the Quick Fluency Routine on p. 13), consider using screening data to support intentional, purposeful pairs to support striving readers.

A stronger reader provides a striving reader with:

- a scaffold for decoding and accuracy
- a model of reading with prosody or expression
- an example of appropriate pauses and tone in complex sentence structure

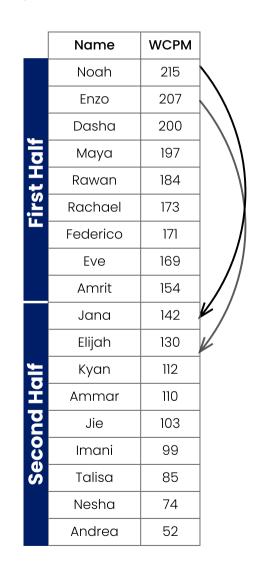

Create data-driven pairings by:

- Order student data from most to least fluent, according to the Words Correct Per Minute score from an Oral Reading Fluency subtest.
- Split the list in half: pair the most fluent reader (first reader from the first group) with a reader with average reading fluency (first reader from the second group).
- Look at the pairs and move students as needed to support behaviour and social dynamics.

Considerations for striving readers:

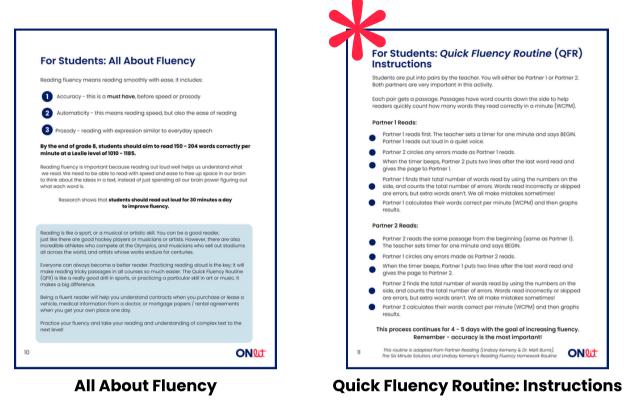

- Talk to students before beginning a new instructional routine, asking for their input, including about student pairs
- Offer the passages in advance so students can pre-read with support
- Offer a pairing with the teacher if needed
- Consider other supports that may be necessary, including increasing time and intensity of reading instruction or intervention

Reflecting on Progress Rubric

This routine is adapted from *Partner Reading* (Lindsay Kemeny & Dr. Matt Burns), *The Six Minute Solution*, and Lindsay Kemeny's *Reading Fluency Homework Routine*

All About Fluency

Reading fluency means reading smoothly with ease. It includes:

- Accuracy this is a must have, before speed or prosody
- Automaticity this means reading speed, but also the ease of reading
- **Prosody** reading with expression similar to everyday speech

By the end of grade 8, students should aim to read 150 - 204 words correctly per minute at a Lexile level of 1010 - 1185.

Reading fluency is important because reading aloud well helps us understand what we read. We need to be able to read with speed and ease to free up space in our brain to think about the ideas in a text, instead of just spending all our brain power figuring out what each word is.

Students should read out loud for 30 minutes per day to improve fluency.

Reading is like a sport, or a musical or artistic skill. You can be a good reader, just like there are good hockey players or musicians or artists. However, there are also incredible athletes who compete at the Olympics, and musicians who sell out stadiums all across the world, and artists whose works endure for centuries.

Everyone can always become a better reader. Practicing reading aloud is the key; it will make reading tricky passages in all courses so much easier. The Quick Fluency Routine (QFR) is like a really good drill in sports, or practicing a particular skill in art or music. It makes a big difference.

Being a fluent reader will help you understand contracts when you get a car, medical information from a doctor, or paperwork when you get your own place one day.

Practice your fluency and take your reading and understanding of complex text to the next level!

Quick Fluency Routine (QFR) Instructions

Students are put into pairs by the teacher. You will either be **Partner 1** or **Partner 2**. Both partners are very important in this activity.

Each pair gets a passage. Passages have word counts down the side to help readers quickly count how many words they read correctly in a minute (WCPM).

Partner 1 Reads:

- Partner 1 reads first. The teacher sets a timer for one minute and says BEGIN.
 Partner 1 reads out loud in a quiet voice.
- 2 Partner 2 circles any errors made as Partner 1 reads.
- 3 When the timer beeps, Partner 2 puts two lines after the last word read and gives the page to Partner 1.
- Partner 1 finds their total number of words read by using the numbers on the side, and counts the total number of errors. Words read incorrectly or skipped are errors, but extra words aren't. We all make mistakes sometimes!
- Partner 1 calculates their words correct per minute (WCPM) and then graphs results.

Partner 2 Reads:

- Partner 2 reads the same passage from the beginning (same as Partner 1).
 The teacher sets timer for one minute and says BEGIN.
- 2 Partner 1 circles any errors made as Partner 2 reads.
- 3 When the timer beeps, Partner 1 puts two lines after the last word read and gives the page to Partner 2.
- Partner 2 finds the total number of words read by using the numbers on the side, and counts the total number of errors. Words read incorrectly or skipped are errors, but extra words aren't. We all make mistakes sometimes!
- 5 Pai

Partner 2 calculates their words correct per minute (WCPM) and then graphs results.

This process continues for 4 - 5 days with the goal of increasing fluency. Remember: accuracy is the most important!

This routine is adapted from Partner Reading (Lindsay Kemeny & Dr. Matt Burns), The Six Minute Solution, and Lindsay Kemeny's Reading Fluency Homework Routine

Reflecting on Progress Graph

Reading with expression that is similar to everyday conversation makes what we are reading easy to understand. Getting used to different kinds of sentences and understanding the way they work together helps us improve our fluency.

Use this rubric to **self-reflect** on your fluency skills as they develop and improve.

Fluency Rubric

	1	2	3	4
Expression and Volume	I read in a quiet voice as if to get words out. It doesn't sound like natural talking to a friend.	I read in a quiet voice. It sounds natural in part of the text, but I don't always sound as if I'm talking to a friend.	I read with good volume and expression. Sometimes I slip into expressionless reading and don't sound like I'm talking to a friend.	I read with varied volume and expression. I sound like I'm talking to a friend with my voice matching the interpretation of the passage.
Phrasing (Scooping)	I read word by word in a monotone voice - the same tone across the passage.	I read words together in groups of two or three, but I don't pause for punctuation or use it to add emphasis and tone.	I read with a mixture of run-on without pauses, I pause mid- sentence. There is some choppiness. I emphasize words when needed.	I read with good phrasing, using punctuation as guide for emphasis. I use the right tone.
Smoothness (Automaticity)	I often hesitate while reading, I sound out words, and I repeat words and phrases. I need many attempts to read the same passage.	I read with extended pauses and breaks. There are many "rough spots."	I read with occasional breaks in rhythm. I have difficulty with specific words, sentences, or sentence structures.	I read smoothly with some breaks, but I self-correct with difficult words or sentences.
Pace	l read slowly and it takes a lot of effort.	l read a little bit slowly.	I read fast and slow throughout the reading.	l read at a conversational pace throughout the reading.

Autumn Peltier: Anishinaabe Water Protector

Words That Matter	
Anishinaabe	(Aw-nish-i-naw-beh) - meaning person lowered from the sky by Creator
Anishinabek	(Aw-nish-i-naw-beck) - meaning people lowered from the sky by Creator
Wiikwemkoong	(Wee-kwem-koong) - Bay of the Beaver
Vocabulary Spotlig	nt
unceded	means that the people of Wlikwemkoong never relinquished any rights to any of the lands in the Great Lakes Basin to any nation
sovereignty	controlling one's own land and government
activism	speaking out for the rights of others, the environment, etc
reverence	
	deep respect

Spotting Syntax

"Autumn Peltier, an Anishinaabe activist, has become a symbol of hope."

"Since then, she has continued to speak at various forums and events, amplifying the voices of Indigenous communities."

"She reminds us that the fight for clean water is not just a matter of environmental preservation. It is a fundamental human right that must be upheld for the well-being of present and future generations." Appositive: a noun is further described by another noun or noun phrase enclosed with commas.

Multiple clauses and phrases, including the prepositional phrase "Since then", plus passive voice construction.

Use of pronouns "she" for Autumn and "It" for clean water

Autumn Peltier: Anishinaabe Water Protector

Autumn Peltier, an Anishinaabe activist, has become a symbol of hope in the fight	14
for clean water. She was born on September 27, 2004, on the Wiikwemkoong	27
Unceded Territory on Manitoulin Island, Ontario, Canada. Peltier belongs to the	38
Wiikwemkoong First Nation, which has a deep-rooted connection to the land and	51
water. The word Wiikwemkoong means Bay of the Beaver.	60
Peltier has made significant strides in advocating for the protection of water resources. She was inspired to become an activist at the age of eight when she attended a water ceremony and noticed polluted water.	72 87 95
The damage from colonization impacts all areas of life. When Indigenous ways of knowing and being are suppressed, pollution grows. When Indigenous sovereignty to govern and protect the land and water is pulled apart, pollution continues to grow.	108 119 133
Despite colonization, Autumn draws strength from her culture and the teachings of	145
her elders. Her Aunt Josephine; her mother, Stephanie Peltier; and Autumn's	156
grandmother, Martia Mandamin-Peltier inspired her. Anishinaabe culture looks to	165
elder women as 'the ones who hold us together.' These elders gave Autumn a deep	180
reverence for the natural world and influenced younger generations in	190
Wiikwemkoong and beyond.	193
Autumn's Peltier's biggest inspiration was her Aunt Josephine Mandamin. Mandamin	203
co-founded <u>Mother Earth Water Walk</u> . This group walked for water, raising	215
awareness about water pollution. Josephine Mandamin walked the shores of all five	227
Great Lakes, 17,000 km in total. A children's book called <i>The Water Walker</i> by Joanne	242
Robertson tells her story of activism and deep connection to water and earth.	255
Autumn Peltier's activism gained international attention in 2016 when she was 13	267
years old. She addressed the United Nations General Assembly on the issue of water	281
protection. Her impassioned speech called on world leaders to take action to	293
safeguard water resources for future generations. Since then, she has continued to	305
speak at various forums and events, amplifying the voices of Indigenous	316
communities. Access to clean water in Indigenous communities is a problem.	327
Governments find solutions to provide clean water in other areas, but haven't done	340
the same for many Indigenous communities.	346

Peltier is undeterred in her mission to protect water resources and uphold 358 Indigenous rights. One of Peltier's most recent roles in activism is as the Chief Water 373 Commissioner for the Anishinabek Nation. She represents 40 First Nations in Ontario. 385 She advocates for water rights and raises awareness about the importance of 397 preserving water as a sacred resource essential for all life. 407 Peltier's advocacy extends beyond her role as a commissioner. She has participated 419 in numerous protests and demonstrations. She draws attention to issues such as 431 water contamination, pipeline construction, and the impact of climate change on 442 Indigenous communities. Through her activism, she strives to uphold the principles 453 of environmental justice and Indigenous sovereignty. 459 In addition to her advocacy work, Peltier is also a role model for Indigenous youth. 474 She inspires them to become stewards of the environment and champions for 486 496 social justice. She emphasizes the importance of education and empowerment, encouraging young people to speak out against injustice and take action to create 499 504 positive change in their communities. 520 She urges young people "Keep going, don't look back, and if you have an idea, just 536 do it; no one is going to wait for you or tell you what to do." 548 Autumn Peltier honours the legacy of Indigenous water protectors who came before her. She creates hope for a more sustainable and just future. She reminds us that 563 the fight for clean water is not just a matter of environmental preservation. It is a 579 fundamental human right that must be upheld for the well-being of present and 593 595 future generations.

Words That Matter

Anishinaabe	(Aw-nish-i-naw-beh) - meaning person lowered from the sky by Creator
Anishinabek	(Aw-nish-i-naw-beck) - meaning people lowered from the sky by Creator
Wiikwemkoong	(Wee-kwem-koong) - Bay of the Beaver

Waubgeshig Rice: Tibaadjimaad

Words That Matter

Waubgeshig	(wah-bah-gee-zhig) - a name meaning white cedar
Wasauksing	(wah-sock-sing) - means place that shines brightly in the reflection of the sacred light
tibaadjimaad	(ti-bod-ji-mawd) - one who is telling the story

Vocabulary Spotlight

sacred	special and spiritual significance - something that matters deeply
resilience	surviving, and even thriving, despite difficulties
enduring	lasting a long time
ancestral	belonging to our ancestors, our grandparents, and great grandparents, and all those who were born and lived before us

Spotting Syntax

"As the community faces the sudden collapse of modern society, Rice weaves together the concepts of tradition, adaptation, and the enduring strength of Indigenous communities."

"The novel follows the story of Evan Whitesky, a young Anishinaabe man."

"I identify as Anishinaabe and Canadian. As such, I must be accountable to the people of Wasauksing, and Anishinaabe communities everywhere." Dependent clause - the first part of the sentence depends on the second part and cannot stand alone.

Appositive - a noun is further described by another noun or noun phrase that is enclosed with punctuation.

Prepositional phrase - "As such" is used to summarize the sentence before.

Waubgeshig Rice: Tibaadjimaad

Waubgeshig Rice is an Anishinaabe author from Wasauksing First Nation in the Parry Sound area in Ontario. Wasauksing means the "place that shines brightly in the reflection of the sacred light." Rice has made great contributions to literature in Canada. His novel <i>Moon of the Crusted Snow</i> , and the sequel <i>Moon of the Turning Leaves</i> are important works. Rice's novels are rooted in Anishinaabe culture and inspired by the land of northern Ontario.	13 26 39 54 66 74
Set in a remote Anishinaabe community during a harsh winter, <i>Moon of the Crusted Snow</i> paints a portrait of resilience, survival, and cultural continuity. As the community faces the sudden collapse of modern society, Rice weaves together the concepts of tradition, adaptation, and the enduring strength of Indigenous communities.	88 101 113 123 124
The novel follows the story of Evan Whitesky, a young Anishinaabe man. Whitesky finds himself in a leadership role when his community confronts an uncertain future. The arrival of a mysterious stranger from the south and a brutal winter creates a difficult situation. Evan must deal with tensions within the community and struggle with his own doubts and fears.	137 150 165 177 183
The story explores identity, belonging, and cultural preservation. As Evan's community confronts the harsh realities of survival, they draw upon their ancestral knowledge and resilience to create a path forward.	193 205 213
<i>Moon of the Crusted Snow</i> has received widespread admiration. The exciting storyline, strong characters, and portrayal of northern Ontario's landscapes are especially admired. Rice's writing is also both lyrical and haunting. It captures the beauty and brutality of the northern wilderness.	225 235 248 255
In addition to praise of the storytelling, <i>Moon of the Crusted Snow</i> has been applauded for its exploration of cultural identity. Rice explores the complexities of Indigenous life in Canada today. He shines light on the resilience and strength of Indigenous communities despite historical trauma and ongoing challenges.	270 282 296 304

Waubgeshig Rice explains the heavy responsibility he feels in writing Indigenous
stories. He writes, "How ... history is orally shared with me creates the foundation of
my writing. Many Indigenous cultures are based on spoken stories, which are passed
down from generation to generation. This oral tradition has kept Anishinaabe stories
alive despite all efforts by settler governments to destroy them. I must carry on this
tradition by hearing and speaking these stories as much as possible. Then, (I must)
carefully discern how I adapt any of them to written literature."

He further explains, "I consult with elders and family members before I commit406anything to the page. These histories and experiences are very sensitive. Writing418about them carelessly could cause further harm and damage relationships. When429telling a community's truths, trust is both vital and vulnerable."439

As an author, Waubgeshig Rice offers readers a glimpse into Anishinaabe culture451and tradition. He is also clear about his goals as an Anishinaabe writer. He says "I467proudly proclaim that I am from Wasauksing. I identify as Anishinaabe and479Canadian. As such, I must be accountable to the people of Wasauksing, and492Anishinaabe communities everywhere. It is a daily responsibility that takes priority503over all of my creative practices. To me, that identity embodies all the triumphs and518tragedies that have come to define it."525

The recent release, Moon of the New Turning Leaves has been nominated for an539Aurora Award for Best New Novel in Canadian Science Fiction and Fantasy writing.552These two novels will continue to make an impact with readers from all walks of life.568

culmination	the result of a long or many step process
terminated	fired or ended
undeterred	can't be stopped
inclusivity	a noun that means that everyone is welcome and belongs

Spotting Syntax

"At the centre of this battle was Delwin Vriend, an Alberta college instructor."

"Vriend had worked at King's College for four years, earning good performance reviews and steady promotions. He wanted to continue his good work there in Chemistry, Physics and Mathematics."

"His courage and conviction remind us that, change is possible – one person, one voice, at a time."

Appositive - a noun is further described by another noun or noun phrase that is enclosed with punctuation.

Use of pronoun "He" for Delwin and use of word "there" for King's College.

Use of a dash to indicate an extra description to follow.

The Landmark Legal Battle for LGBTQ2S+ Rights in Canada: Delwin Vriend's Quest for Justice

In a landmark ruling on April 2, 1998, Canada took a monumental step forward in its16fight against discrimination and declared discrimination based on sexual25orientation illegal. This historic decision was the culmination of a long legal battle. At39the centre of this battle was Delwin Vriend, an Alberta college instructor. Vriend52preferred a quiet life out of the spotlight, but his fight to be treated equally became68a very public case that changed Canada.75

The roots of Vriend's battle trace back to seven years earlier when he faced89discrimination firsthand. He was a lab instructor at the King's College in Edmonton.102One day Vriend was abruptly terminated from his position solely because of his115sexual orientation – he was gay. Vriend took a stand and filed a discrimination128complaint with the Alberta Human Rights Commission.135

He said "At the time, all I wanted was my job back. I wanted my complaint151investigated." Vriend had worked at King's College for four years, earning good163performance reviews and steady promotions. He wanted to continue his good work175there in Chemistry, Physics and Mathematics.181

However, his quest for justice encountered an unexpected hurdle. The Commission192rejected his complaint, citing that "sexual orientation" was not a protected category204under the province's human rights code. Undeterred, Vriend refused to back down.216He decided to take his fight to the courts, launching a legal battle against both the232Commission and the Alberta government.237

Vriend had to make many public appearances. He said "Every time, I had to psych252myself up for things. I had to put on a face. And people didn't realize that." Delwin269Vriend didn't want to be a hero in the field of human rights. However, his fight for his287job became the centre of the battle, the vulnerable human face of a battle for equal303treatment under the law.307

The case eventually reached the Supreme Court of Canada, and in a historic ruling,	321
the court sided with Vriend, affirming that discrimination based on sexual orientation	333
was a violation of human rights. The decision marked a significant moment in	346
Canada's legal landscape. It paved the way for more legislative reforms,	357
inclusivity and acceptance in Canadian society.	363
Vriend said, "Even at the time we were fighting our case, we didn't just see it as a	381
fight about sexual orientation. This was about so much more than getting sexual	394
orientation in. The ruling says you can't exclude people. It means every single	407
Canadian is equal and you must include them."	415
His story builds hope for marginalized communities worldwide, inspiring countless individuals to stand up against discrimination and fight for their rights and the rights of others.	425 439 441
As we reflect on the legacy of Delwin Vriend and the pivotal role he played in	457
securing LGBTQ2S+ rights in Canada, we are reminded of the enduring power of	470
activism and the imperative of standing up for what is right. His courage and	484
conviction remind us that, change is possible – one person, one voice, at a time. His	499
legacy will continue to inspire future generations to strive for a more inclusive and	513
equitable society for all people.	518

Appositive - a noun is further described by another noun or noun phrase that is enclosed with punctuation.

The Remarkable Journey of Olympian Track Athlete, Andre DeGrasse

Andre DeGrasse attended Milliken Mills High School in Markham, Ontario. It was here that his athletic journey took a significant turn. At the age of 17, he participated in a high school track meet, where his performance caught the eye of Tony Sharpe, a former Olympian and coach. Sharpe saw immense potential in Andre and offered to train him.

After graduating from high school, DeGrasse attended Coffeyville Community68College in Kansas, where he continued to hone his skills. His dedication and hard82work paid off when he won both the 100 meters and 200 meters events at the NJCAA99(National Junior College Athletic Association) Championships in 2013. This108remarkable achievement earned him a scholarship to the University of Southern119California (USC), a university known for its strong track and field program.131

At USC, Andre DeGrasse's career reached new heights. In 2015, he won the NCAA145(National Collegiate Athletic Association) Championships in both the 100 meters and
200 meters. His time of 9.75 seconds in the 100 meters was the fastest ever recorded
by a Canadian sprinter at that time. This outstanding performance not only earned
him national recognition, but also caught the attention of the international athletic
community.145

In 2015, he signed a professional contract with Puma, a major sportswear brand, marking the beginning of his professional and international career. His first major international competition was the 2015 World Championships in Beijing, where he won a bronze medal in the 100 meters.

At the 2016 Rio de Janeiro Olympics, competing against some of the world's fastest255athletes, DeGrasse won a silver medal in the 200 meters and bronze medals in both270the 100 meters and the 4x100 meters relay. His performance at the Olympics was a285testament to his hard work, dedication, and natural talent.294

Andre's charismatic personality in interviews and integrity on the track also earned him a large fan base and made him a popular figure in the athletics community. His down-to-earth personality and genuine kindness have endeared him to fans and athletes alike.

Like many athletes, Andre DeGrasse faced his share of challenges and setbacks. In	350
2017, he suffered a hamstring injury that forced him to withdraw from the World	364
Championships in London. However, Andre's determination and resilience saw him	374
through this difficult period, and he made a strong comeback in the following years.	388
He maintained his positive attitude saying, "Never let your success go to your head.	402
Never let your failures get in your heart."	410
After recovering from his injury, he returned to competition with renewed vigor. In 2019, he won silver medals in both the 100 meters and 200 meters at the World Championships in Doha. His performances demonstrated his ability to overcome adversity and maintain his status as one of the world's top sprinters.	423 439 449 461
The Tokyo 2020 Olympics, held in 2021 due to the COVID-19 pandemic, was a defining	476
moment in Andre DeGrasse's career. He won a gold medal in the 200 meters with a	492
time of 19.62 seconds, setting a new national record for Canada. He also won a	507
bronze medal in the 100 meters, reaffirming his place among the elite sprinters of	521
his generation.	523
In addition to his athletic achievements, Andre is also known for his philanthropic	536
efforts. He established the Andre DeGrasse Family Foundation, which aims to provide	548
support and resources to underprivileged youth, helping them achieve their goals in	560
sports and education. He encourages young athletes to not give up, saying, "You	573
[can be] physically tired but at the same time, you've got to just tell yourself, 'I can	590
do it. I can't give up."	596
Andre DeGrasse's journey to an Olympic champion is a story of dedication, hard	609
work, and perseverance. His achievements on the track have earned him a place	622
among the greatest sprinters in history, while his character and generosity have	634
made him a beloved figure around the world.	642

dedication

The Latin root dedicate means devoted, and centuries ago, it was only used in a religious context (in many different religions).

Mark Oldershaw: Paddling Towards Excellence

Words That Matter

podium comes from the Greek word for foot, referring to the steps that athletes stand on to receive medals. The steps allows people to be seen and heard better. The word podiatrist means a foot doctor and comes from the same Greek root.

Vocabulary Spotlight

prominent	important and noticeable
showcased	showed off in a noticeable way
legacy	the accomplishments that people will remember in the future
pursue/pursuit	go after or chase (verb / noun)

Spotting Syntax

"Mark Oldershaw, a prominent figure in Canadian canoeing, has made significant contributions to the sport."

"Born into a family with a rich legacy in canoeing, Oldershaw was immersed in the sport from a young age."

"His father, Olympic canoeist Scott Oldershaw, and his grandfather, three-time Olympian Bert Oldershaw impacted Mark greatly. Under their guidance, he developed a passion for canoeing." Passive voice - "he has made great contributions" instead of a more direct statement like "he contributed greatly."

Dependent clause - the first part of the sentence depends on the second part and cannot stand alone.

Use of the pronoun "their" is used in second sentence to refer to the father and grandfather.

Mark Oldershaw: Paddling Towards Excellence

Mark Oldershaw, a prominent figure in Canadian canoeing, has made significant contributions to the sport. As a young boy, Mark paddled on the waters of the Credit River in Ontario. The Credit River is part of the the traditional waters of the Missisaugas of the Credit, and has been paddled for centuries by many people.	11 27 42 55 68 79
From his early days to his podium finishes at the Olympic Games, Oldershaw's paddling journey exemplifies athleticism and perseverance, and he has used his platform as an athlete to be an ally and a role model.	91
Born into a family with a rich legacy in canoeing, Oldershaw was immersed in the	106
sport from a young age. His father, Olympic canoeist Scott Oldershaw, and his	119
grandfather, three-time Olympian Bert Oldershaw impacted Mark greatly. Under	129
their guidance, he developed a passion for canoeing that would shape his future.	142
He was a double gold medalist at the Junior World Championships in 2001, but a	157
tumour was discovered in his right hand a few years later. It caused him to miss	173
qualifying for the 2004 Summer Olympics in Athens. He required two surgeries on	186
the hand. However, he did not give up his pursuit of canoeing at the highest levels	202
of competition.	204
Oldershaw's athletic career reached new heights when he made his Olympic debut	216
at the 2008 Beijing Olympics. Despite his relative youth on the international stage, he	230
showcased his talent by finishing twelfth in the men's C-1 1000m event. The stage	243
was set for his future success.	249
In 2012, at the London Olympics, Oldershaw secured a bronze medal in the men's C-1	263
1000m event. His podium finish not only solidified his status as a rising star in	278
canoeing but also served as a source of inspiration for aspiring athletes across	292
the country.	294
The dedication, the hard work, the sacrifices athletes must make to reach and	307

The dedication, the hard work, the sacrifices athletes must make to reach and307medal in the Olympics is unimaginable to many. Oldershaw wrote a letter to his320young daughters in 2019 explaining why he continues to pursue Olympic goals.332He explained;334

"So... why am I still chasing this dream after all these years? 346

I don't do it so you will see me win races, or win medals. I do it so you will see me	368
never give up. So you will see me work hard. So you will see me follow my dreams. I	387
do it so you will see me give it everything I have no matter what. Even if I fail, even if I	409
lose, I want you to see me fight.	417
Never be afraid to try to do something that is hard. Never listen to people who tell	434
you that you can't do something. Never listen to people who tell you that you are too	451
small, or too big, or too weak, or too young, or too old. They are wrong."	467
Oldershaw also uses his voice on social media to be an ally, reminding others that	482
"Every child matters." He urges all to engage in "meaningful discussion about the	495
effects of Residential Schools (and build) bridges with each other for reconciliation."	507
He also added his "voice to the call for social justice" after the murders of George	523
Floyd and Breonna Taylor in the U.S. saying, "I am committing to change. I will get	539
more educated, have more conversations, be more aware, call people out, and be	552
called out if necessary. I understand that I will never understand. However, I stand	566
with you."	568
As he continues to paddle towards excellence, Mark Oldershaw remains a role	580
model for his children and many others across Canada. He reminds us to persevere	594
and tackle hard things, and never give up on our dreams!	605

Canada's Paralympic Sport Landscape: A Profile of High-Level Athletes

The Paralympic Games bring together the best para-athletes from around the12world. It is an incredible achievement to qualify for the Paralympic Games and to26represent your country on the biggest international stage for your sport. A few39notable athletes continue to show this dedication and intensity to be the best in53their sport.55

Mollie Jepsen excels in para-alpine skiing, with a Paralympic gold and multiple69World Cup victories. Despite many injuries and health setbacks, Jepsen trained80rigorously to ensure her competitive edge and was named Best Female Athlete in942018. She previously participated in Gymnastics and Equestrian events, but after the104Vancouver 2010 Paralympic games were in her hometown, she was inspired to make117para-alpine skiing her primary sport.123

Brent Lakatos dominates wheelchair racing, winning multiple Paralympic and World133Championship titles. His intense training schedule focuses on endurance, speed,143and technique pushing him to continue breaking world records for the sport. He156explained, "I hate training. Sprint training is okay because the workouts are short,169sharp and intense. Unfortunately, there are no short cuts to building an endurance182base — just lonely boring miles on your roller or on the road. But I love racing more199than I hate training." Lakatos shows us that hard work brings big gains in sport.214

Aurelie Rivard dominates para-swimming, setting records and winning golds. She225has collected 19 World Championship medals. She is the all-time most decorated238Canadian woman at the Para Swimming Worlds, winning 10 medals including five250gold. Rivard's dedicated regimen includes hours at the pool and dryland training to263make her an elite force in swimming.270

Patrick Anderson is known as one of the best wheelchair basketball players in the284world. He has led his team to three Paralympic gold medals and one World298Championship gold medal. He enjoys music and plays in a band but remains a312crucial team player for Canada. He has been named the Canadian Wheelchair324Basketball Male Athlete of the Year multiple times.332

Dean Bergeron is a wheelchair racer and has competed at four Paralympic Games.345With a total of 11 medals, he is one of Canada's most successful Paralympians. In his360impressive career, Bergeron captured three gold, three silver, and five bronze371medals. In one memorable race at Beijing 2008, he came back from a tough start to387win Gold. He reminds athletes that "When things aren't going well, just concentrate400on what you can do the best and give the best performance you can, and never416give up."418

The Paralympic Foundation of Canada imagines a future where Canadians with a430disability are offered ample opportunities to experience the transformative power of441sport. They strive to support diverse champions that inspire belief in the potential for455greatness. These athletes shape their communities across Canada into healthy and466inclusive spaces where every person with a disability feels a sense of belonging479and inclusion.481

There are over 6.2 million Canadians living with a disability—approximately one in six.495Ensuring their inclusion, both within and beyond the realm of sport, enriches our508nation immeasurably. Paralympic athletes train hard, compete with intensity and518push the boundaries of human achievement. They are athletes driven by their530pursuit of excellence and representing Canada on the world stage.540

Aamjiwnaang	(ahm-ji-nawng) means at the spawning stream
Anishinaabek	(Aw-nish-i-naw-beck) - meaning people lowered from the sky by Creator
reconciliation	comes from the Latin word reconciliāre, meaning "to make good again" or "to repair." The Truth and Reconciliation Commission of Canada made 94 Calls to Action to work to repair the devastating impact of the colonization of Canada by settlers.

Vocabulary Spotlight

relocations	moving from one area to another
reclaiming	recover something that was lost, given or taken away
restitution	giving back or making up for something that was lost or stolen
environmental racism	when the lands around communities, largely inhabited by a group of people who have been marginalized based on race, are not protected by the government. Dumping of toxic materials in certain areas is one example.

Spotting Syntax

"The Land Back movement aims to address historical injustices, while identifying the importance of Indigenous perspectives as caretakers of the land, not only in Ontario, but across North America." Multiple clauses and phrases are used. "Not only" and "but also" serve as a correlative conjunction, presenting two pieces of related information.

The Land Back Movement in Ontario: Championing Indigenous Sovereignty

The Land Back movement aims to address historical injustices, while identifying the 12 importance of Indigenous perspectives as caretakers of the land, not only in Ontario, 25 but across North America. It recognizes Indigenous sovereignty, and the rights 36 Indigenous peoples have to their traditional territories. 43 The Land Back movement is led by different Indigenous communities and 54 organizations within their territories. In Ontario specifically, Indigenous communities 63 have been standing up for the return of their lands. These lands were often taken 78 without consent through treaties that were not honoured, and forced relocations or 90 other means. These actions have resulted in the loss of land, resources, and 103 sovereignty for Indigenous peoples. This movement is not just about physical land. 115 The movement is also about reclaiming cultural, spiritual, and economic 125 connections to the land. It's about strengthening Indigenous languages, traditions, 135 and ways of life deeply tied to the land. 144

The Land Back movement in Ontario challenges land ownership and government155structures still heavily influenced by colonialism. The movement aims towards165meaningful reconciliation and restitution. Among some of the important figures175leading this change are:181

Sylvia McAdam (Saysewahum): Lawyer, professor and co-founder of the Idle No193More movement remembers, "It was an incredible time of prayer and just sacred206gathering. It just brought so many people together." Sylvia McAdam supports217Indigenous rights and environmental justice through her work by raising awareness228about the impacts of colonialism and protecting Indigenous lands and waters.239

Vanessa Gray: A member of the Aamjiwnaang (ahm-ji-nawng) First Nation, is a251land defender and educator. She has been leading a movement to stop the264construction of the Line 9 pipeline, which poses significant risks to Indigenous lands,277waters, and communities. Gray has drawn attention to the unfair impacts of289environmental racism on Indigenous peoples. "I defend the land and water because301it is sacred."304

Taina Da Silva: member of Grassy Narrows First Nation. This is a small community 318 one hour north of Kenora, Ontario. Da Silva has worked on short documentary-style 332 films that reflect growing up around environmental degradation and Indigenous 342 activism. "The climate crisis grows more critical each year. Despite this, and despite 355 the fact that Anishinaabek (Aw-nish-i-naw-beck) and Cree, among others, are on 366 the frontlines of land and water preservation and revitalization, Canada (federal and 378 provincial governments and industry) continues to break treaties and... threaten the 389 livelihoods of Indigenous people." 393 406 These activists, along with countless others, are leading the charge for change in Ontario. As Indigenous women, they are fulfilling traditional roles in caring for the 419 425 land and water for future generations.

As the Land Back movement in Ontario continues to gain momentum, non-437Indigenous allies must stand in solidarity with Indigenous communities, listen to their449voices, and support their efforts to reclaim their lands and assert their rights.462Together, we can work towards a future where Indigenous sovereignty is respected,474land rights are upheld, and justice is realized for all.484

"Just be unapologetically you; you're not less than anybody else."

"Simu Liu, a rising star in Hollywood, has captivated audiences with his talent, charisma, and his unprecedented role as Marvel's first Asian superhero." Use of a semicolon to join two related independent clauses in place of a comma and a coordinating conjunction.

Multiple clauses and phrases, including an appositive: a noun is further described by another noun or noun phrase that is enclosed with punctuation.

Simu Liu: From Unknown Actor to Marvel Superhero

Simu Liu, a rising star in Hollywood, has captivated audiences with his talent,	13
charisma, and his unprecedented role as Marvel's first Asian superhero. Liu was born	26
in Harbin, China, and raised in Mississauga, Ontario. Liu's career has been	38
groundbreaking in many important ways.	43
Simu Liu graduated from the University of Western Ontario with a degree in business	57
administration. He pursued a career in finance before realizing his true calling lay	70
elsewhere. Inspired by a desire to pursue his passion for acting, Liu took a leap of	86
faith and enrolled in acting classes. He was determined to carve out a place for	101
himself in the fiercely competitive, often culturally narrow, world of entertainment.	112
Liu's breakthrough came with his role as Jung Kim in the hit Canadian sitcom <i>Kim's Convenience</i> . As the rebellious son of Korean immigrant parents, Liu's character, Jung, resonated with audiences. The role earned him critical acclaim and a dedicated fan base. His performance showcased his versatility as an actor and set the stage for even greater opportunities to come.	127 138 150 163 171
However, roles for Asian actors, especially, leading roles - characters with depth and substance, were hard to find, if not impossible. Liu explained the lack of Asian representation in film and its impact when he said, "Every community should have a superhero. And the truth is, for many of us in the Asian community, we didn't grow up with that. There is something missing in Asian America. They're missing people to tell them, 'It's okay to be who you are - you belong. Just be unapologetically you; you're not less than anybody else."	 183 197 211 228 242 257 262
In 2019, Liu's career reached new heights when he was cast as the lead in Marvel	278
Studios' <i>Shang-Chi and the Legend of the Ten Rings</i> . Portraying the main character,	292
a skilled martial artist and superhero, Liu made history as the first Asian actor to	307
headline a Marvel Cinematic Universe film. His casting marked a significant	408
milestone for Asian representation in mainstream media.	415
Liu's dedication to the role was evident from the start. To prepare for the physically	430
demanding role of Shang-Chi, he underwent rigorous training in martial arts and	443
stunt work. He immersed himself in the character's world and embraced the	455
challenge with enthusiasm and determination. His commitment to authenticity and	465
excellence set the tone for the entire production and inspired his cast-mates and	479

484

crew to give their all.

Liu explained why the role meant so much to him, "What I've always really 498 510 appreciated about MCU superheroes versus elsewhere is that they are trying to disrupt the idea of what a superhero can be." Diverse heroes disrupt the traditional 524 stereotypes. 525 Shang-Chi and the Legend of the Ten Rings premiered to rave reviews. Liu's 539 performance earned praise from critics and audiences alike. His portrayal of Shang-551 Chi was applauded for its depth, nuance, and emotional resonance. This role 563 cemented his status as a leading man in Hollywood and paved the way for future 578 582 generations of Asian actors. 597 Beyond his work on screen, Liu is a vocal advocate for representation and diversity in the entertainment industry. He uses his platform to amplify marginalized voices and 609 622 challenge stereotypes and misconceptions. He says, "If it's true that I wouldn't have 636 had a career if it weren't for these conversations about diversity, the importance of 651 representation, then I need to continue to fight that battle for the people that come 665 after me." Through his advocacy work, Liu strives to create a more inclusive and equitable world of entertainment where everyone can see themselves reflected 675 677 on screen. 691 He says "now, what needs to change, really, is that we need better representation 704 behind the camera. We need better representation among the people who tell the stories or the people who greenlight the movies." 712 As he continues to make his mark in Hollywood, Liu remains grounded and grateful 726 740 for the opportunities he has been given. He credits his success to hard work, 753 perseverance, and the support of his family, friends, and fans. With each new project, he seeks to push boundaries, defy expectations, and inspire others to pursue 766 776 their dreams, no matter how daunting the odds may seem. Liu exemplifies possibility and progress in an industry where representation matters 787 791 now more than ever.

suffragistcomes from the latin suffragium meaning "support, ballot, vote castin an assembly; or right of voting."The suffix "ist" means "one who does."

suffragette used by a journalist who was making fun of the women who were working to get the vote. The suffix "ette" means little one. He was suggesting they were just like little ones playing at politics, and shouldn't be taken seriously.

Vocabulary Spotlight

flourished	grew strong and beautiful
factor	a certain effort or thing that makes a difference
legacy	things that remain in the world after a certain event or someone's efforts
pivotal	a word to describe an action that tips the outcome one way or another

Spotting Syntax

"This event, a type of agitprop—art with explicit political messaging—was written to raise money and generate support for women's suffrage."

"In 1916, Manitoba became the first province in Canada to grant women the right to vote. Other provinces soon followed suit." Centre-embedded syntax - an explanation is inserted midsentence between dashes.

Idiom - "followed suit" means to do the same as another. It is from card games where players must follow suit.

Nellie McClung – Canadian Suffragist

Nellie McClung was born in Chatsworth, Ontario, on October 20, 1873. Her early life on	14
a Manitoba farm, where her passion for reading and learning flourished, was a	27
significant factor in shaping her future. These formative years, along with her	39
experiences as a mother, laid the foundation for her career as a writer and activist.	54
Her journey was not without its obstacles, but her resilience and determination truly	67
distinguished her.	69
Becoming a new mother in 1897 made Nellie care even more about the rights of	84
people who couldn't speak up for themselves, especially children who needed help.	96
This personal experience fuelled her activism and deepened her commitment to	107
social reform.	109
During the early 20th century, women in Canada did not have many rights that men	124
had. They could not vote, hold public office, or have the same opportunities for	138
education and employment as men. Nellie and other suffragists believed women	149
should have the same rights and opportunities as men and fought tirelessly to	162
achieve this.	164
In 1914, Nellie and her fellow activists staged a mock parliament in Winnipeg. This	178
event, a type of agitprop—art with explicit political messaging—was written to raise	192
money and generate support for women's suffrage. It drew significant attention to	204
the suffrage cause and helped to change public opinion. It was a strategic move	218
that showcased Nellie's innovative approach to activism.	225
In 1916, Manitoba became the first province in Canada to grant women the right to vote. Other provinces soon followed suit, and by 1918, women across Canada had the right to vote in federal elections. This was a monumental achievement, and a	240 254 267

Beyond her pivotal role in the suffrage movement, Nellie McClung was a prolific writer.288Her literary works, such as her novel Sowing Seeds in Danny, examined women's lives302and struggles and were decisive in raising awareness about women's issues. Her314writing inspired countless individuals to advocate for gender equality.323

significant stride towards gender equality in Canada.

In Nellie's words, "I want to leave something behind when I go: some small legacy of truth, some word that will shine in a dark place." 349

274

Nellie McClung was also a strong advocate for social reform. She believed in362improving the lives of all people, not just women. She campaigned for better working376conditions, access to education, and public health services. Her efforts contributed387to many significant changes in Canadian society, such as establishing public health399services and improving labour laws.404

One of Nellie's most significant contributions was her pivotal role in the 'Persons 417 Case.' In 1927, she joined forces with four other women, collectively known as the 431 'Famous Five,' to challenge the Canadian government's definition of 'persons' under 442 the British North America Act. Women were not considered 'persons' at that time and 456 471 were thus ineligible to be appointed to the Senate. The Famous Five took their case 485 to the Judicial Committee of the Privy Council in Britain, Canada's highest court of appeal at that time. In a groundbreaking ruling in 1929, the court affirmed that 499 women were indeed 'persons' and could be appointed to the Senate. This decision 512 528 was a turning point in the fight for gender equality, as it recognized women as full citizens with the right to participate in political life, and Nellie's role in it was 543 instrumental 544

Nellie McClung's accomplishments have not only made a difference but a lasting556impression on Canadian society. She paved the way for future generations of568women to fully engage in public life. Her work was not just a temporary change but584a lasting transformation that has made Canada a more equal and just society597for all.599

In her words, "We may not all reach the heights, but we can all do something to 616 help others." 618

Commas are used before a name in a parenthetical clause to set off the clause from the rest of the sentence.

Preposition - unlike, meaning different from.

The Honourable Lincoln Alexander: Forging New Paths in Canadian Politics

Lincoln MacCauley Alexander stands out as a figure of great leadership and12advocacy in Canadian history. His mother, Mae Rose, was from Jamaica and his25father, Lincoln, was from St. Vincent and the Grenadines. As the first Black Member of40Parliament and the first Black individual to serve as Lieutenant Governor in Ontario,53Alexander's journey embodies resilience, courage, and an unwavering dedication to63public service.65

Born on January 21, 1922, in Toronto, Lincoln Alexander faced racial discrimination77from an early age. Despite encountering systemic barriers and societal prejudices,88he pursued his education with determination. Alexander graduated from McMaster98University with a Bachelor of Arts degree in 1949. He later earned his law degree from114Osgoode Hall Law School in 1953. His academic achievements marked the125beginning of a lifelong commitment to breaking down barriers and advocating for137equality and justice for all Canadians.143

In 2006 he wrote a memoir called, Go to School, You're a Little Black Boy and159mentioned a 1960 tour through some 23 African nations that had a significant172impact on his point of view:178

"The experience was an eye-opener for me, not only as a lawyer, but also as a
human being, because I began to realize what Black people could do. I saw that,
unlike the Hollywood version, these Africans were men and women of significant
talents. I became conscious of my Blackness. I had come from a White world. Now
we were in Africa, and I realized we are people of skill and creativity. I was a Black
man and I was a somebody. I started standing tall."

Alexander's entrance into politics ushered in a new era of representation and376inclusivity in Canadian governance. In 1968, he made history as the first Black389Member of Parliament. He represented the riding of Hamilton West as a member of403the Progressive Conservative Party. Throughout his tenure in Parliament, Alexander413distinguished himself as a tireless advocate for social justice, civil rights, and racial426equality. He earned widespread respect and admiration from colleagues and436constituents alike. Alexander was re-elected four times, serving 12 years.437

During his time in office, Alexander worked hard to address issues of poverty, 450 unemployment, and discrimination. He supported policies to improve education and 460 employment opportunities for marginalized communities. Alexander played a 468 pivotal role in promoting the Canadian Human Rights Act enacted in 1977. This 481 legislation aimed to prevent discrimination based on race, religion, national or 492 ethnic origin, age, sex, sexual orientation, marital status, family status, disability, or 504 conviction for an offense for which a pardon has been granted. The Act was a 519 significant step forward in protecting the rights and dignity of all Canadians. 531

On 20 September 1985, Lincoln Alexander was sworn in as Ontario's 24th lieutenant-544 governor, the first Black Canadian to be appointed to a viceregal position in 557 Canada. Lieutenant Governor Alexander took an active role in the multicultural 568 affairs of Ontario. His mission was to fight racism, stand up for youth and advocate 583 for seniors. He strengthened his commitment to promoting diversity and inclusivity. 594 603 He supported initiatives that celebrated Ontario's multicultural heritage and 613 encouraged civic engagement among all residents. Alexander also used his 625 position to highlight the contributions of Black Canadians to the province's history and culture. His work fostered a greater sense of belonging and pride among 638 647 diverse communities. In recognition of his many important accomplishments, January 21st has been celebrated as Lincoln Alexander Day across Canada 658 since 2015 660

Today, as Canada continues its journey toward a more inclusive and equitable672society, the legacy of Lincoln Alexander serves as an inspiration to all. He said "It is688not your duty to be average. It is your duty to set a higher example for others705to follow."707

"In 2009, he was awarded the Order of Canada, one of the country's highest honours, in recognition of his contributions to disability rights and humanitarian efforts." Centre-embedded syntax a detail is inserted midsentence between two commas.

Rick Hansen: A Champion of Resilience and Advocacy

Rick Hansen has dedicated his life to removing barriers and creating an inclusive13world where people with disabilities are living to their full potential. While he's best27known as the "Man In Motion", Hansen's life, story, and career have always been a42demonstration of hope and inspiration about the potential of people with53disabilities.54

Hansen was born in Port Alberni, British Columbia, in 1957. At the age of 15, when70returning from a fishing trip, he was in a car accident which left him paralyzed from86the waist down. After healing and rehabilitation, his former coaches encouraged97him to try wheelchair sports. He soon began playing Wheelchair Basketball and109enrolled at the University of British Columbia for a degree in Physical Education. He123became the first person with a physical disability to graduate with a Physical136Education degree.138

Hansen soon began competing in wheelchair racing and quickly emerged as one of
Canada's most celebrated Paralympic athletes. At the 1984 Paralympic Games in
Los Angeles, he made history by winning three gold medals and setting a new world
record in the 800-meter wheelchair race. In five years, Hansen won 19 wheelchair
marathons, three world titles, and 15 medals, six at the Paralympic Games and nine
at the Pan Am Games. He was also named Canada's Disabled Athlete of the Year in
222
225

As a young boy, he dreamed of going on a great adventure. After his accident, he241had to reflect on what kinds of adventures were still possible. As he travelled around256the world for competitive events, he saw more people with disabilities being268marginalized. He knew that someone had to do something to show the world that283people of all abilities could participate and contribute as productive members of295their communities. He decided to be that someone.303

His adventure would be the Man in Motion Tour where Hansen would wheel around317the world. The tour lasted almost two years from 1985-1987. Every day he wheeled for3338 hours adding up to a total of 40 000 kms and travelling through 34 countries.348When they returned to Vancouver two years later, 50 000 people were at BC362Stadium Place to celebrate their arrival.368

While the Tour was an inspiring journey, social stereotypes were still alive. More work382needed to be done and Hansen was not about to give up. This steadfast396determination led him to found the Rick Hansen Foundation in 1988. Their mission is410to inspire, create and deliver innovative solutions to remove barriers to inclusion for423people with disabilities.426

Hanson's advocacy work has earned him widespread recognition. In 2009, he was438awarded the Order of Canada, one of the country's highest honours, in recognition451of his contributions to disability rights and humanitarian efforts. Additionally, he has463received the Order of British Columbia and the Queen Elizabeth II Diamond Jubilee476Medal. He was also inducted in the Canadian Sports Hall of Fame in 2006.490

His advocacy work also ventured into conservation efforts. In 1997, Hansen became 502 the Founding Chair of the Fraser River Sturgeon Conservation Society and in 2000 he 515 525 established the Pacific Salmon Endowment Fund Society. Fishing and the 539 environment were a big part of his rehabilitation journey and he is committed to 554 giving back to the things that have given so much to him. Hansen said when discussing his conservation efforts: "Having the chance to get back to fishing when I 568 was young was a lifesaver. It's important that we do our best to ensure that the 584 outdoors is accessible and inclusive for everyone." 591

Hansen has dedicated his life to creating a world that is accessible and inclusive for606all. Hansen and his team at the Foundation are dedicated to raising awareness,619changing attitudes, helping create accessible spaces, and liberating the amazing629potential of people with disabilities.634

"She is not just a celebrated musician in Canada; she is also a dedicated advocate for social change and a powerful voice for the Black community." A semicolon joins two related independent clauses in place of a comma and a coordinating conjunction. "Not just" and "also" serves as a correlative conjunction to join two related ideas.

Jully Black: A Trailblazing Musician and Advocate for Social Change in Canada

Jully Ann Inderia Gordon, also known as Jully Black, is a true Canadian icon who was16inducted into Canada's Walk of Fame in 2021. She is not just a celebrated musician32in Canada, she is also a dedicated advocate for social change and a powerful46voice for the Black community. Known as "Canada's Queen of R&B," Black has used60her platform to address issues of racial injustice, mental health, and community71empowerment. She made significant contributions both in the music industry and828484

Born on November 8, 1977, in Toronto, Ontario, Jully Black grew up in a Jamaican99Canadian family. Music was an integral part of her life. Her late mother, a single114parent, instilled in her the values of hard work and resilience. Black's musical talent128was evident from an early age, and she began performing in church choirs and142local talent shows. She credits hearing Whitney Houston on the radio at age seven156as her introduction to pop music. She once told the National Post, "Without Whitney170Houston, there is no Jully Black."176

Black's professional music career took off in the late 1990s when she signed with190Warner Music Canada. She went on to write songs for Destiny's Child, Nas, Sean Paul,205Missy Elliott, and many other artists. Her debut album, This Is Me, released in 2005,220established her as a prominent figure in the Canadian R&B scene. Over the years,234she has released several critically acclaimed albums, including Revival and The245Black Book. Black has earned numerous awards, including Juno Awards and259

When asked why she is successful, she answered "My perseverance and my will to
win. The fact that I did not give up. It does not matter how many accolades you may
receive or not receive or nominations or whatever, it's just the fact that I kept going
and I'm still on my path. That's what I'm most proud of."273
291
307
319

Beyond her musical achievements, Jully Black has made significant strides as an
advocate for social justice and community empowerment. She has been vocal
about the challenges faced by Black Canadians, using her platform to raise
awareness and drive change. She has consistently used her voice to call out331
342
354
367
379

396 At an NBA All Star game in Salt Lake City in February of 2023, Black sung the 409 Canadian National Anthem to a global audience and changed one word. Instead of 423 "Our home and native land,' she sung "Our home ON native land." She decided 439 before the game that this was a chance to make a statement. She had turned down 452 opportunities to sing the national anthem because she felt strongly about all she 463 was learning about residential schools, "learning more about needing much more 476 reconciliation – conversations that still need to be had for and with the Indigenous 488 community." She remembered thinking "okay, I'm going to get the permission from 502 Indigenous peoples who I love and respect, and I know they wouldn't leave me 507 astray, and go from there."

Black was honoured at an AFN Special Chiefs Assembly in Ottawa for this advocacy.521She was presented with an eagle's feather and blanket, gifts of great significance.534

One of Black's major focus in advocacy is mental health through physical fitness547and wellness. Recognizing the stigma associated with mental health issues,557particularly within the Black community, she has openly shared her own struggles569and experiences. She launched a popular online step aerobics program called, The581Power of Step. Black encourages open conversations about mental health and592promotes the importance of seeking help and support and getting active.603

Black inspires and uplifts young people to pursue their dreams and strive for616excellence. She advises youth to, "really explore who you are trying to be, not630necessarily who you are but who you are trying to be. It's two different things. Who646are you really trying to be? Are you trying to be the humanitarian, the philanthropist?661...What risks are you willing to take? How long are you willing to wait?"675

Jully Black is much more than a talented musician; she is a dynamic advocate for
social change and an inspiring leader in the Black community. Her efforts to address
mental health issues, empower Black youth, and her fight for racial justice have had
a profound impact on Canadian society. Black continues to champion the cause of
equity and inclusion, leaving an indelible mark on the cultural and social landscape690

Shary Boyle: A Visionary Artist Championing Social Change in Canada

Words That Matter

culture "culture" originally meant "to till the earth." Then "cultivation through education, systematic improvement and refinement of the mind" was used in the 1500s as a metaphor. In 1805, the most common definition of "culture" meaning "traditions and achievements of a people" came into use.

Vocabulary Spotlight

- innovative describing something as new and creative
- **universal** something that applies to all people. For example; joy and sadness are universal human emotions.
- preservation keeping something in good condition

Spotting Syntax

Reflecting on her art, Boyle explains, "I really feel the need to create an alternate world, a vision of what might be magical and beautiful and fantastic about being human."

She said, "instead of having an Indigenous exhibition, or an area in the museum that was specific to Indigenous, that we would, regardless of cultural background, be presented in equality on the same stages but with our cultural distinctions in tact." Dependent clause - The first part of the sentence "Reflecting on her art" cannot stand alone.

Multiple clauses and phrases are used. There is also centreembedded syntax - a detail is inserted mid-sentence between two commas.

Shary Boyle: A Visionary Artist Championing Social Change in Canada

Shary Boyle is a Jewish Canadian artist. Her innovative work and social advocacy13have made significant impacts on Canadian arts and culture. Boyle uses her art to27explore complex themes and address pressing social issues. She is a prominent39figure in both the art world and social justice movements.49

Born in Scarborough, Ontario, Shary Boyle grew up in a creative environment that62fostered her unique artistic vision. She studied at the Ontario College of Art and76Design (OCAD). Boyle developed her skills in various mediums, including drawing,87painting, sculpture, and performance art. Her Jewish heritage and her experiences98growing up in a diverse urban environment have deeply influenced her work.110Themes of her multi-media art often include identity, social justice, human rights,123gender, and power dynamics.127

Boyle's work is noted for its unique blend of fantastical elements and raw human141emotion. She often explores folklore, mythology, and her personal experiences to152create pieces that are visually stunning and thought-provoking.161

One of Boyle's most well-known projects is her performance art collaboration with174musician, Christine Fellows. The project titled "Spell to Bring Lost Creatures Home,"186combines live drawing, music, and storytelling. It communicates themes of196displacement, loss, and the search for belonging. The project was celebrated for its209ability to engage audiences on an emotional and intellectual level.219

Reflecting on her art, Boyle explains, "I really feel the need to create an alternate234world, a vision of what might be magical and beautiful and fantastic about being248human." She wants to share universal understandings through images and258mediums that go beyond words and language.265

Shary Boyle's influence as an artist and advocate continues to grow. Her work has279been exhibited in major galleries and museums around the world, including the291Venice Biennale, the National Gallery of Canada, and the Art Gallery of Ontario.304Boyle's innovative approach and commitment to addressing social issues through314her art have inspired countless other artists and activists.323

Boyle has been a vocal advocate for gender equality and women's rights. Her work	337
often explores the complexities of female identity. She challenges traditional gender	348
roles, and by depicting women in powerful, multifaceted ways, she challenges	359
stereotypes.	360
She explains that her art is about identity. "The way that we really perceive each other and how we perceive ourselves, and the differences between those two things," is important to Boyle.	375 387 392
Boyle is also dedicated to raising awareness about inequity and colonialism. She	404
has collaborated with Indigenous artists and activists, using art to highlight issues	416
such as cultural preservation, land rights, and the impacts of colonization. Her	428
exhibits in Vancouver, Outside of Me, and Hard Edge, also drew attention to	441
unceded lands.	443
She was one of the first to challenge the way art museums organize art. She said,	459
"instead of having an Indigenous exhibition, or an area in the museum that was	473
specific to Indigenous, that we would, regardless of cultural background, be	484
presented in equality on the same stages but with our cultural distinctions in tact."	498
Shary Boyle is a visionary Canadian artist whose work challenges traditional	509
boundaries and provokes viewers to think critically. Through her multidisciplinary	519
approach and her dedication to advocacy, Boyle has made great contributions to	531
the art world and society.	536

culture "culture" originally meant "to till the earth." Then "cultivation through education, systematic improvement and refinement of the mind" was used in the 1500s as a metaphor. In 1805, the most common definition of "culture" meaning "traditions and achievements of a people" came into use.

Dyslexia: Remarkable Achievements of Successful Individuals

Words That Matter

dyslexiaa relatively newer word coined in German from the Greek prefix "dys"meaning "difficult" and *lexie* meaning reading; "ia" is a suffix used for
abstract nouns. The word dyslexic was first recorded in use in 1946.

Vocabulary Spotlight

characterized	known by certain traits
optimist	always seeing the bright side
pessimist	always seeing the dark side
unparalleled	nothing else is the same or as good

Spotting Syntax

"Dyslexia, a learning difference characterized by difficulty with reading, writing, and spelling, affects millions of people worldwide."

"After being diagnosed with dyslexia in her 30s, it all made sense."

Appositive - a noun is further described by another noun or noun phrase that is enclosed with punctuation.

Dependent clause - the first part of the sentence depends on the second part and cannot stand alone.

Dyslexia: Remarkable Achievements of Successful Individuals

Dyslexia, a learning difference characterized by difficulty with reading, writing, and11spelling, affects millions of people worldwide. It's essential to recognize that dyslexia23doesn't define a person's potential for success. In fact, many individuals with dyslexia36have achieved remarkable accomplishments. People with dyslexia defy stereotypes45and often showcase great determination and resilience. Here are just a few57examples of successful individuals with dyslexia who have found great success.68

Renowned entrepreneur and founder of the Virgin Group, Richard Branson is one of 81 the most iconic business figures of our time. Despite struggling with dyslexia 93 throughout his life, Branson built a vast business empire that spans industries like 106 music, airlines, telecommunications, and space tourism. His dyslexia hasn't hindered 116 his creativity, innovative thinking, or leadership skills, demonstrating that learning 126 differences need not limit one's potential for success. He looks for the potential in 140 everything and everyone. He says "I think being an optimist is ... a lot more fun than 156 being a pessimist. As a leader, it's so much better to look for the best in people, to 174 praise people and generally be positive. That brings the best out of people." 187

As one of the most influential filmmakers in history, Steven Spielberg's dyslexia hasn't 200 prevented him from crafting cinematic masterpieces. From "Jaws" to "Jurassic Park" 211 and "Schindler's List," Spielberg's talent behind the camera is undeniable. He explains 223 that he takes time to read: "Reading is very important. It's of critical importance to 238 me that I read books and scripts. And I've been able to overcompensate, and I 253 basically-never feeling ashamed of myself-will take 2 hours and 45 minutes to 3 268 hours to read 120 pages, what most people can read in about an hour and 10 284 minutes...I've learned to adjust." 289

The iconic singer, actress, and fashion icon **Cher** has captivated audiences for 301 314 decades with her unparalleled talent. She explained that in school, "I couldn't read quickly enough to get all my homework done. Almost everything I learned, I had to 329 learn by listening. My report cards always said that I was not living up to my 345 potential." After being diagnosed with dyslexia in her 30s, it all made sense. Cher has 360 won numerous awards, including an Academy Award, Grammy Awards, and Golden 371 383 Globe Awards. Her ability to overcome challenges and excel in multiple creative fields is a testament to her resilience and determination. 392

Cher is an advocate for veterans, LGBTQ2s+ rights, and assistance for children. She's	405
also a member of the Understood Board of Advocates, an organization that	417
provides supports so "people who learn and think differently can thrive — in school,	430
at work, and throughout life."	435

448 Legendary Formula One racing driver, Sir Jackie Stewart, is another example of a 460 high achiever with dyslexia. Despite facing academic challenges due to his learning 471 differences, Stewart's exceptional skills behind the wheel propelled him to three 482 Formula One World Championships. He later became a successful racing team 497 owner. He proved that dyslexia need not be a barrier to success in the fiercely 508 competitive world of motorsports. He encourages others, "Find something you can 524 be the best at. Anything. There is always something you can do no matter how small 540 or unusual. And find other ways of doing things. It can be a more successful route... 555 Even in business I have never taken the interstate. I take the winding rural road 568 instead and see opportunities other people don't. And I pay attention to detail."

578 Academy Award-winning actress, comedian, and television host Whoopi Goldberg 590 is celebrated for her versatility and wit. Despite struggling with dyslexia and 600 dyscalculia (a specific learning disability in math), Goldberg has achieved 611 remarkable success in Hollywood and beyond. Her talent, humour, and resilience 623 have made her a beloved figure in entertainment inspiring others with learning 635 differences to pursue their dreams. She encourages all children to read saying, 650 "Great stories are powerful. They can introduce you to new people, take you to new 666 places. They can expand your world and help you to understand it. They can take a 694 dyslexic kid from New York City and turn her into a life-long lover of books. You can 701 learn to love to read. I did."

These individuals, among many others, exemplify the extraordinary potential of
those with dyslexia. Rather than letting their learning differences hold them back,
they have embraced their strengths, pursued their passions, and achieved711723

It's important to recognize that dyslexia is not a measure of intelligence or potential.752With the right resources and opportunities, individuals with dyslexia excel762academically, professionally, and creatively.766

Words That Matter

dyslexia a relatively newer word coined in German from the Greek prefix "dys" meaning "difficult" and *lexie* meaning reading; "ia" is a suffix used for abstract nouns. The word dyslexic was first recorded in use in 1946.

What Students are Saying About the Fluency in Perspective Quick Fluency Routine (QFR)

"I really like this activity because the only way I can read without getting bored is reading out loud. I like reading out loud because I get in this flow where I don't stop until I'm done and it gives me experience with new words and pronunciation. It's also fun because it's like you're trying to beat a high score and once you get to the end you feel super accomplished and I just really enjoy it. I might even say it's my favourite activity in English." –JG

"The Fluency activity we did during the weeks of school were quite helpful; it helped with my accuracy by rereading the text each week and my words per minute went up... At first, I barely got to 100 words per minute, but now I can casually and perfectly read over 200 words per minute every time." –TH

"The fluency activity helped me each day to get the best score I could. Each day we did the fluency paper I got a better score. Day one, I got the lowest score, and day five, I got the highest score. Each time we do the fluency sheet I get better at my reading and pronouncing words properly." –HK

"This fluency activity has been positive so far and has expanded my vocabulary. By reading these every day, I have noticed that my speed in reading is faster, as well as my understanding of words. These fluency activities help you even if you get a word wrong, because you can read it again tomorrow and practice to not get anything wrong. It is good to be reading, it teaches you a lot of skills." –BW
